

KNOWBOND - NEWSLETTER #1

February 2023

KNOWBOND PARTNERS:

We are **seven partners** involved in Adhesive Bonding Technology education and training from **six EU countries** Austria, Belgium, Germany, Slovenia, Spain and Portugal. KNOWBOND is coordinated by **INEGI** and co-funded by the Portuguese **Erasmus+ Agency**.

WHY KNOWBOND?

Adhesive bonding technology personnel qualification is gaining **cross-industry** relevance in **several sectors** (e.g. railway, automotive, wind energy, transport, machine and plant construction industries, among others). Within the **EUROPEAN ADHESIVE BONDER (EAB)** current qualification, there is no possibility for individuals to **develop** and **certify** knowledge and skills related with **specific professional activities** as they are being required within their workplaces.

OUR GOALS:

- Enable** the development of knowledge and skills as they are being required for specific industrial applications;
- Facilitate** the certification of operational staff linked to the performance of specific activities;
- Foster** life-long learning and individual learning paths;
- Enable** the modularization of the European adhesive bonder (EAB) training curricula;
- Develop** innovative and digital learning tools, using a problem-based learning approach, case studies, and other types of exercises that may support work-based learning;
- Enable** the integration of online tools within different learning platforms available;
- Ensuring** harmonized and high quality in the provisioning of Adhesive Bonding Education.

RESULTS & ACTIVITIES:

Three **project meetings** were conducted so far with all project partners to monitor the activities progress and set **future actions**. Find out more about KNOWBOND meetings:

[READ MORE](#)

Online Kick-off on the 9th December 2021.

[READ MORE](#)

2nd meeting in Vienna, Austria, on the 11th May 2022.

[READ MORE](#)

3rd meeting in Bremen, Germany, from 16th to 18th November 2022.

Already this year, from 10th to 13th January 2023, KNOWBOND trainers were **capacitated** towards the implementation of the **European Adhesive Bonding Training (SEABT) course**, during the learning and teaching activity organised by INEGI in Porto.
